All Delaware birthing hospitals and related entities are invited to attend this follow-up educational session on August 7. In this session, we will provide the opportunity for each birthing facility to discuss strategies/barriers to implementation of the Improving Postpartum Access to Care (IPAC) initiative goals, as well as provide education on the Blue Band initiative, with a focus on postpartum warning signs. Our MCO partners will also provide education on their care coordination programs within Delaware.

If you attended the first training on June 5, please bring your blue folders to the upcoming training on August 7.

Please RSVP by July 24 on the [linked event registration page](#).
