

MEDICAL HOME

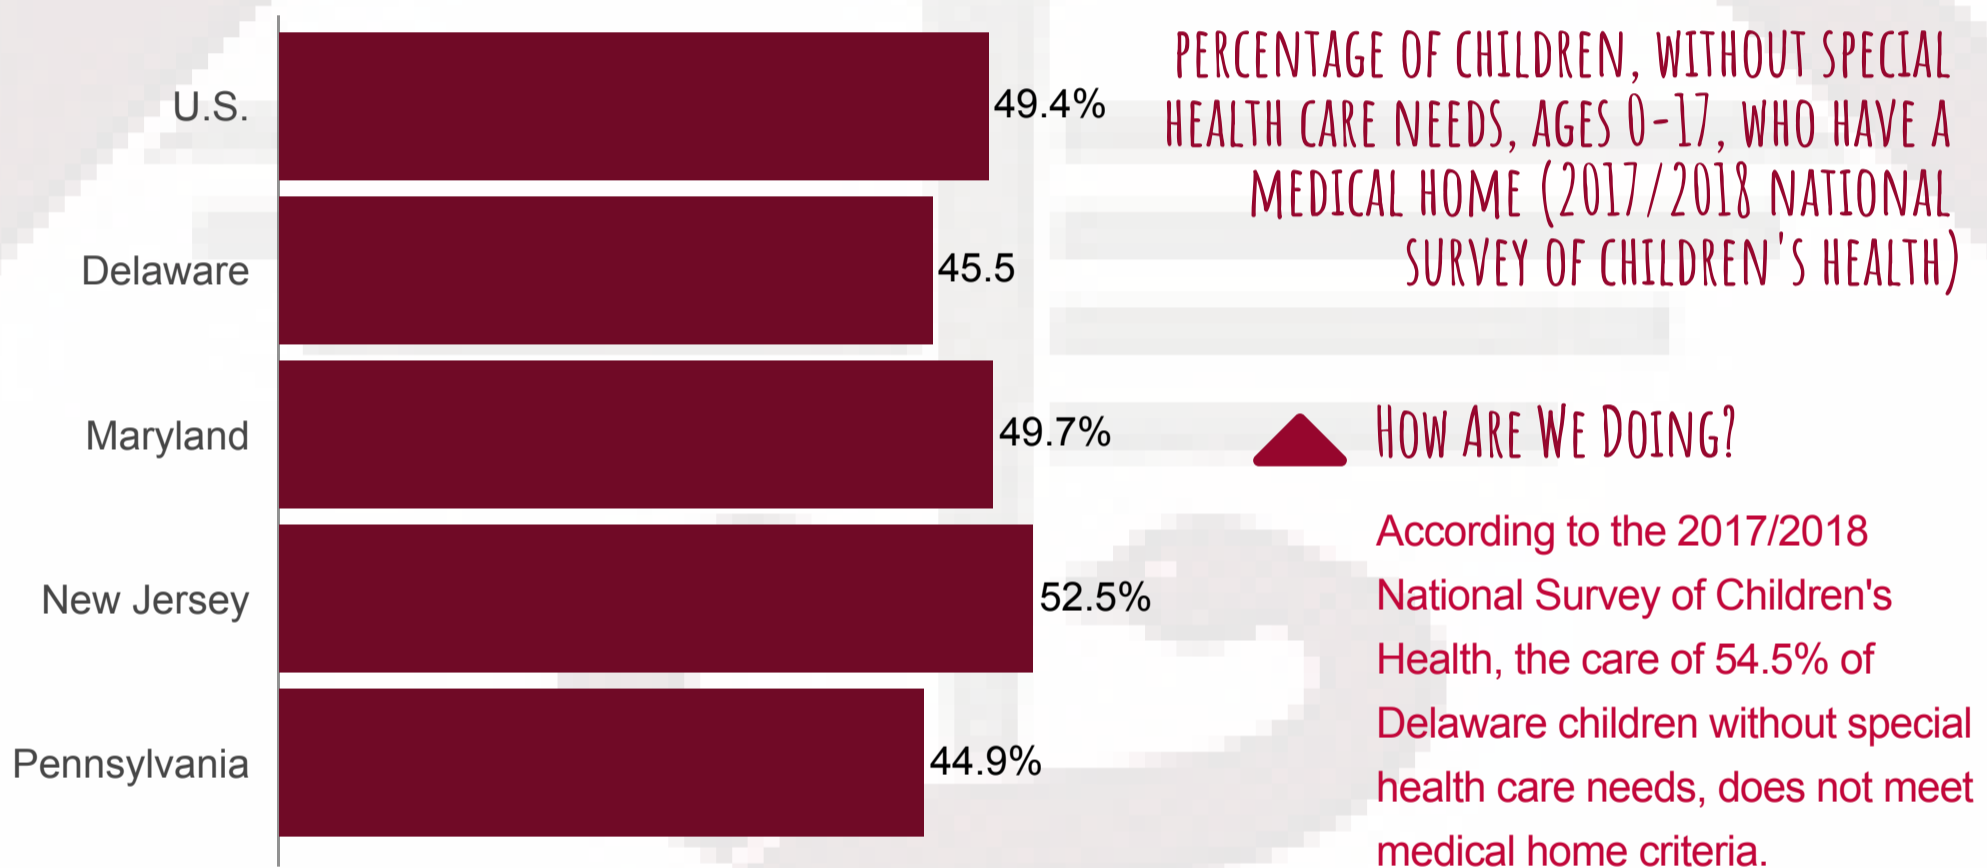

★ WHAT IS A MEDICAL HOME?

It is an approach to providing comprehensive primary care.

A Medical Home is not a house, office or hospital.

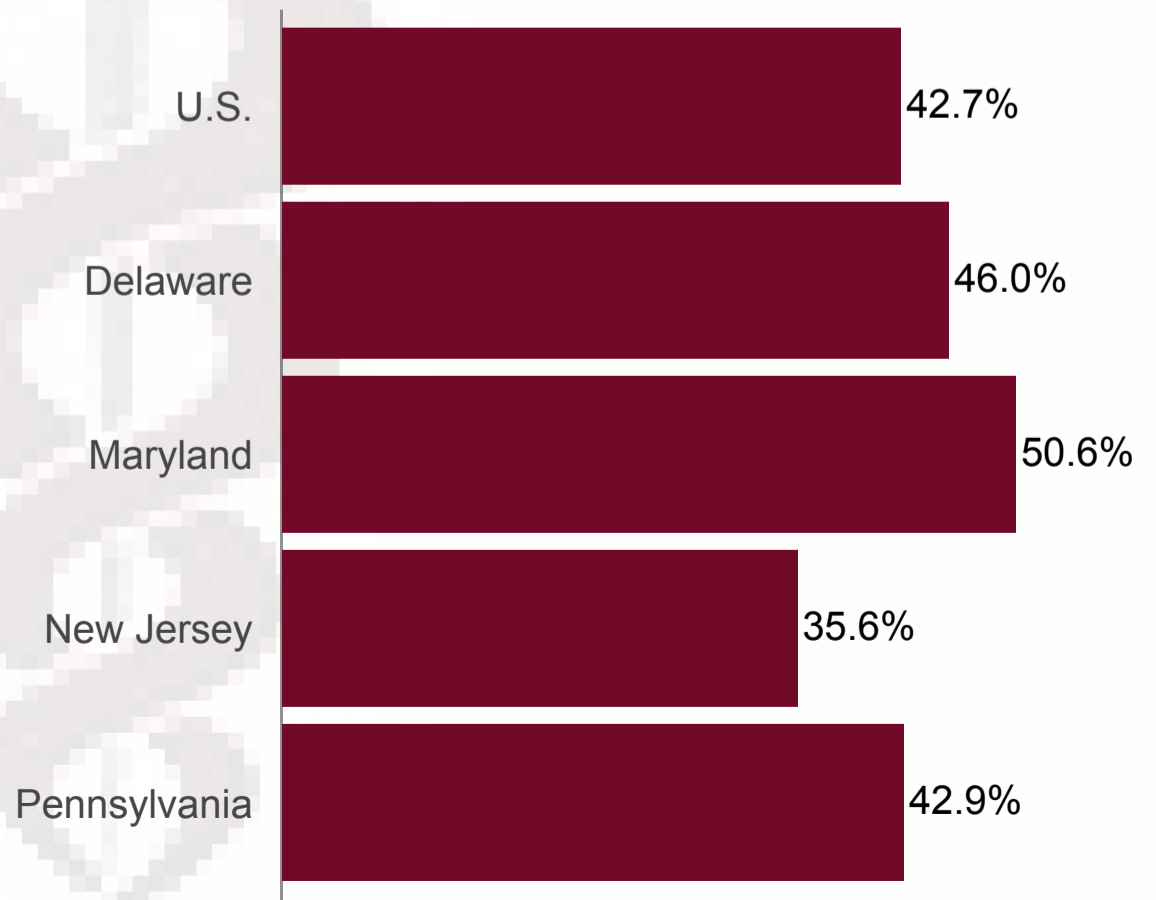

A Medical Home is the primary care clinician and his/her team, where they work as a team with the family/patient to make sure the medical and non-medical needs of the child/youth are met.

PERCENTAGE OF CHILDREN, WITH SPECIAL HEALTH CARE NEEDS, AGES 0-17, WHO HAVE A MEDICAL HOME (2017/2018 NATIONAL SURVEY OF CHILDREN'S HEALTH)

▲ HOW ARE WE DOING?

According to the 2017/2018 National Survey of Children's Health, the care of 54.0% of Delaware children with special health care needs, does not meet medical home criteria.

DELAWARE GOALS

Increase the percentage of pediatric clinicians in Delaware who have effective policies and procedures in place for effective care integration and cross-provider communication.

Improve access to care coordination within a medical home for families of children and youth with special health care needs.

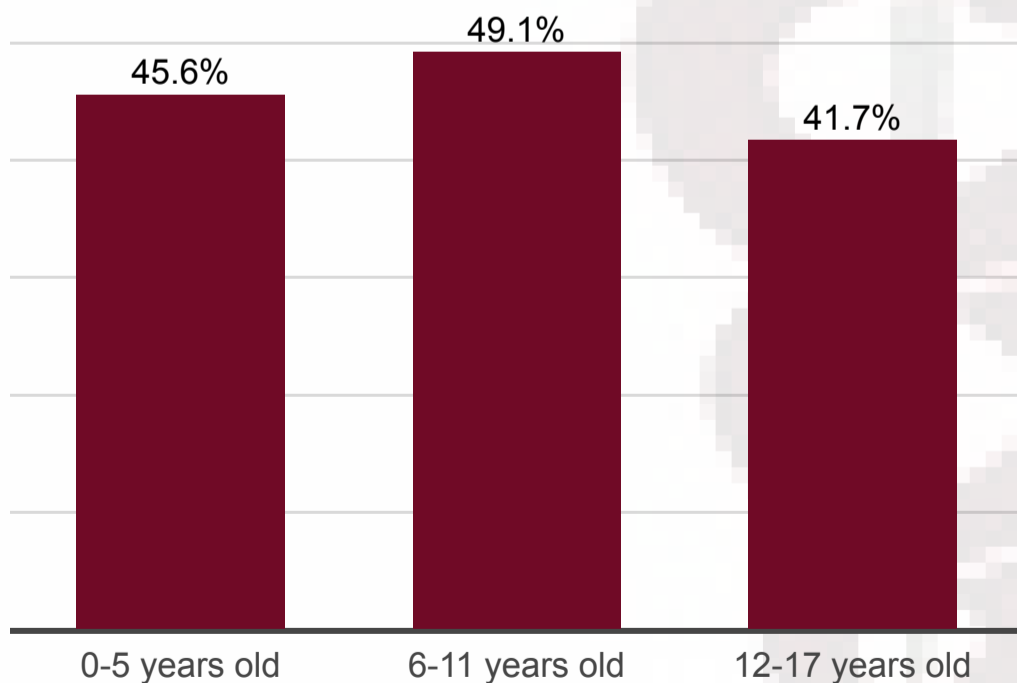

Increase the percentage of primary pediatric practices reporting use of care plans for children and youth with special health care needs patients that have been developed and shared with families.

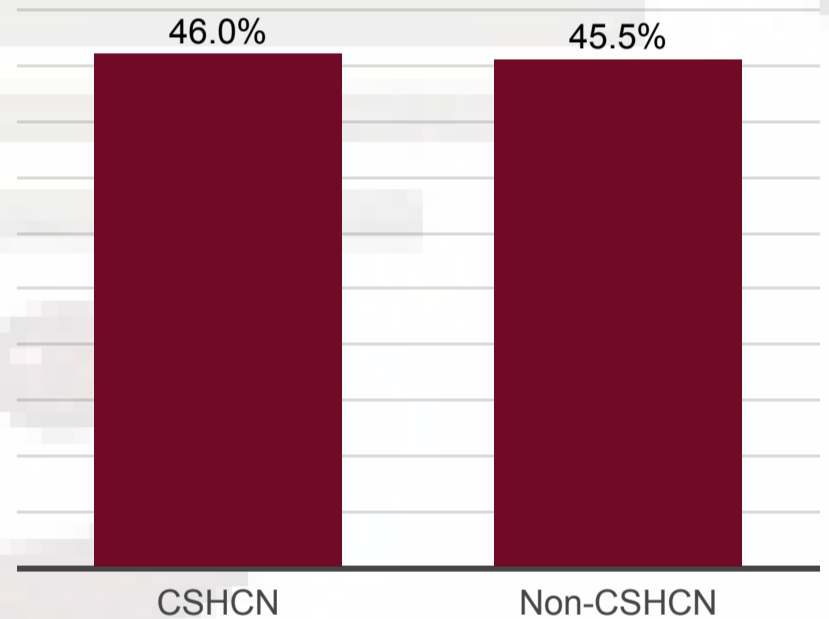

DELAWARE'S COMMUNITY VOICE

"Most mothers are pleased with the relationship they have with their children's doctors and appreciate helpful referrals to specialists and support groups."

"Mothers of special needs children have difficulties finding pediatricians willing to work with them and seek referrals from family or friends."

DELAWARE CHILDREN WITHOUT SPECIAL HEALTH CARE NEEDS WHO HAVE A MEDICAL HOME, BASED ON AGE

DELAWARE CHILDREN WITH AND WITHOUT SPECIAL HEALTH CARE NEEDS WHO HAVE A MEDICAL HOME

DELAWARE'S ACTIVE MEASURES

Increasing the percent of children with and without special health care needs who have a medical home is one of Delaware's currently selected National Performance Measures (NPM) for the 2020 fiscal year.
