OVERVIEW OF STRATEGIC PLANNING PROCESS

Understanding the Strategic Planning Process

“\$350,000/year to establish to establish school-based health centers in high needs elementary schools.”

-Delaware General Assembly, FY2020 Budget Epilogue

The Delaware Division of Public Health (DPH), in collaboration with several key stakeholders, is convening to create a Strategic Plan for Delaware School-Based Health Centers (SBHC). This planning process will be used to develop a model for expansion of SBHCs that is both financially sustainable and anchored in best practices. The goal is to ensure that SBHCs are responsive to the individual needs of Delaware’s children — who, for a variety of reasons, may not otherwise have access to the health care system for critical health and wellness services.

REVIEW RECOMMENDATIONS

Recommendations

13 total recommendations approved
by the Steering Committee

For full list, see the [virtual binder](#)

Steering Committee

Recommendation 1

Infrastructure

Recommendations 2, 3, 4, 5

*Delivery

Recommendations 6, 7, 8, 9

Finance & Sustainability

Recommendations 10, 11, 12, 13

* Our workgroup focus

Recommendation 6

Establish a base service menu model that includes:

- *Sports physicals (only physicals for those who need it/linkages to PCPs for physicals)*
- *Minor acute care*
- *Immunizations (only for those who need it/linkages to PCPs for immunizations)*
- *Reproductive health for middle and high school (STD & HIV testing, contraceptives, pregnancy testing, birth control pills)*
- *Behavioral Health (counseling, substance use screening for middle and high school)*
- *Nutrition Counseling*
- *Health education*
- *Insurance navigation*

Identify grants and resources from federal and other state agencies to support this base service menu, if necessary.

Recommendation 7

Ensure approaches to care are aligned and comprehensive across all SBWCs, especially for behavioral and mental health care and trauma-informed treatment modalities, utilize school and state resources/tools, and are consistent with Culturally and Linguistically Appropriate Service (CLAS) standards.

Recommendation 8

Develop relationships between SBWCs and community providers to ensure two-way communication and referrals and enrollment so that SBWCs do not serve as students' primary medical home. Potential to suggest payment incentives for care coordination/linkages.

Recommendation 9

Ensure that existing telehealth service delivery and billing flexibilities continue and that SBWCs are brought-up to speed in telehealth service delivery, especially of behavioral healthcare.
