Recommendation 5: Develop data collection and analysis infrastructure that meets the needs of SBWCs and stakeholders by:

- Standardizing data collection and reporting across SBWCs
- Information technology departments need to be at the table as part of this process
- Encouraging SBWCs to adopt electronic health records (EHRs)
- Developing the ability for DPH, and possibly SBWCs themselves, to generate annual reports showing a dashboard of metrics, including but not limited to:
 - Utilization and performance measures, payer mix, financials
 - Qualitative input from users of SBWCs that convey the value of SBWC services to the legislature and other stakeholders, and to support grant-seeking by SBWCs

Ensure that data collection and reporting tools are able to capture and track data recommended by oversight body as outlined under recommendation 1.
